INDUSTRIES - Sericulture - Silk Filature Factories at Kollegal - Opening of a Grainshop for the benefit workers - Proposals of Director of Industries and Commerce - Approved.

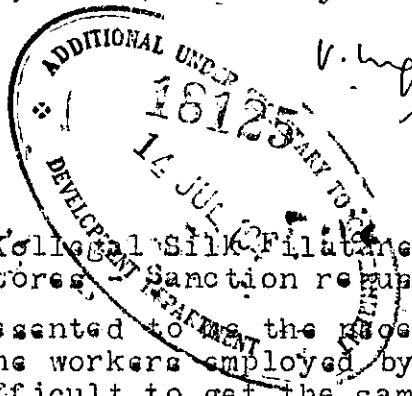
No.2084 D/43. Office of the Director of Industries and Commerce, Madras, dated 10th July 1943.

From

A.Khaleeli Esq., I.C.S.,
Director of Industries and Commerce,

To

The Secretary to Government,
Development Department, Madras.



Sir,

Subject: Government Silk Filatures and Kollegal Silk Filatures Kollegal - Starting of grain stores - Sanction requested.

The Deputy Director (Textiles) has represented to me the necessity of starting a grain shop to provide grains to the workers employed by both the filatures who are finding it increasingly difficult to get the same. He has furnished me figures regarding the quantities of grains to be purchased and the staff required for running the stores. The grains will be purchased wholesale and sold at a price which would cover the running charges of the stores. A sum of Rs.10,000 per month will be required for the purchase of grains and other necessities of life and a sum of Rs.100 per month for running the stores as per details enclosed. I suggest that the money required be found by the Government Silk Filatures and the Kollegal Silk Filatures in the proportion of 3:1. I would in this connection point out that such grain shops have been opened by most of the larger employers of labour in India for the benefit of their workers and that they have proved a boon both to the employers and the employed. I request that Government may be pleased to sanction the scheme outlined above.

2. The question of starting a cooperative society for this purpose will be considered when there is a settled labour force at Kollegal.

3. Plans and estimates for the construction of a grain shop are under preparation and I will address Government for sanction in due course.

Order ~~Resolution Memo~~ Ms. No. 1721, dated 6-8-1943

The Govt approve the proposal of the DIRE for opening a Grain Shop, for the benefit of the workers in the two Silk Filature factories at Kollegal, as a temporary measure till a Cooperative Society of the employees of the factories is formed. Sanction is accorded to the grant of a Special advance of Rs 10,000/- (Rupees Ten Thousand only) to the DIRE for the purpose.

~~The advance will not bear interest but the~~ Sale price of grains shall be so fixed as to ensure recovery of the ~~incidental charges by way of~~ cost of staff employed, rent for the premises used for the grain shop, wherever provided by the Govt or otherwise and interest at 4½% per annum

and any other incidental charges involved
on the amount of advance. Adequate
steps should be taken to see that the Govt
do not incur any loss in the
transaction. The D.F.Sc is requested to see that proper
accounts relating to the transactions of the Grain Shop are kept.

2. The special advance will be debited
to Advances Repayable - Special Advances -
Other advance, the amount being paid
to the ~~Personal~~ Personal Deposit Account to be opened
in the name of the D.F.Sc or such other officer
whom he may nominate for the purpose.
Pending the final refund of the advance, the
subsequent transactions will be outside the P.D.
Account.

When the Grain Shop is wound up,
on the formation of a Co-operative Society, the
advance will be repaid in full and the
excess, if any will be credited to the Govt
under XLVI Miscellaneous - Miscellaneous
If, however, the Account shows an
unpaid balance at the time of closing
the Grain Shop, the difference should be
written off with proper sanction and
debited to 57 Miscellaneous - Miscellaneous and
Unforeseen charges".

3. The Govt ~~do not~~ consider that, in view of
the temporary nature of the arrangements, ~~existing~~ for the Grain Shop
~~permanent buildings~~ at the cost of Govt is not necessary. The D.C is requested to take
steps for the formation of the Co-operative Society as
soon as possible.

To Addl MS.

In his letter in the cf., the DI&C has suggested the opening of a Grain Shop at Kollegal to provide grains to the workers employed in the two Silk filature factories there. It is stated that the grains shall be purchased Wholesale and sold at prices which would cover the running charges of the Shop; the running charges are estimated at Rs 100/- p.m. and the outlay required for the purchase of grains at Rs 10,000/- per month. The DI&C has also suggested that the money required for the purpose should be found by the two Silk filatures and the Kollegal Silk filatures in the proportion of 3 : 1. The DI&C proposes to construct buildings for the Grain Shop, which is only a temporary requisite for the factories.

2. The reasons in support of the proposal are stated at M on p. 1 above. Both the transactions partakes of a commercial nature unconnected with the normal work of the factories. and the suggestion of the Director that the Factories should find the money is not perhaps acceptable. In the interests of the labour in the factories, the outlay required will have to be provided by the Govt from provincial funds, the loss or profit arising from the Venture being

borne by them. For orders whether, in the circumstances, the proposal to open a Grain Shop at Port cost will be accepted. If so the case may be sent to the Dir. dept for remarks.

DR 5743

About 1500 labourers have to be employed in the Jute factories. In these days of grain shortage and fluctuating prices it is necessary in the interests of the factories to open a grain shop for the workers.

The proposal of the Dir is modest: it means a standing loan of Rs 10,000 which may be recovered periodically and a monthly expenditure of Rs 100. To begin with this may be sanctioned for 3 months. Once the shop has got going it should be possible for it to meet the establishment charges (Rs 100 a month) from the profits. Or possibly a cooperative Society might be formed in the meantime.

There is no likelihood of the shop suffering a loss because it would be given all licences & concessions for purchasing grain.

Please see the D.I.&C's letter on pp. 1-3 ante. To give effect to his proposals, the Development Department recommend, among other things that a standing loan

of Rs. 10,000 may be sanctioned from Provincial funds but they have not stated whether it should carry any interest — vide Development Note on p. 2 an

In G.O. No. 893, Development dated 27-5-1943 the Government sanctioned the purchase of rice from Provincial funds for supply to the labourers in the Waynad Forest Division employed on the extraction of timber for war purposes, but the circumstances of that case were rather special in that the labourers concerned have had to work in forest regions where it would be difficult to obtain the supplies of food unless some arrangements were made by the Government. Even so it was ordered that the money advanced by the Government for the purchase of rice should bear interest at 4½% per annum that the sale price of the rice should be so fixed as to ensure recovery of this interest and that the Government be not incur any loss on the transaction.

The position of the Kollegal labourers is different from that of the Wynad labourers and the D.I & C's recommendation in the present case is made not so much on account of any special difficulties experienced by the Kollegal labourers in getting their food supplies as that similar arrangements have been made by other employers of large labour. These proposals will have thus to be viewed in relation to the general policy of the Government regarding food supplies to their employees including labour. Please see in this connection, the Notes on pp. 5-8 N.F., the orders in circulation on p. [illegible] and the letter on p. 13 C.F. of Development's letter No. 13045 E/43-3, dated 6-7-1943. It seems that the decision arrived at in that case in regard to the workers of the Government Departments in the City may as well be applied to the Kollegal labourers and the D.I. & C requested to explore the possibilities of starting a co-operative society for the purpose as early as possible as envisaged at X of this letter on p. 1 C.F. The question of financial assistance to such society when formed may be separately considered if and when such proposals are received -- c.f. in this connection portion

K of the Development Department's note on pp.2-3 N.F. of (U).

With these remarks, the case may be returned to Development u.o. 3. If Development Consider that in the interest of the Factory some temporary arrangement should be made until a Coop. Society can be formed, DCB 19.7.43 by the Govt. of Fiji may agree to the opening of a grain shop. A special advance of Rs 10.000 may be sanctioned for this purpose. This advance will be debited to Advances Repayable - Special Advances - Other Advances, the amount being paid to the Personal Deposit Account to be opened in the name of the Director of Industries or such other officer whom he may name for this purpose. Subsequent transactions pending final refund of the advance will be inside the Personal Deposit Account. The final balances in the Personal Deposit Account will, when the grain shop is wound up be treated as follows:-

(i) If the balance is equal to or less than the amount of the advance originally sanctioned, it shall be transferred in full towards the repayment of the advance the unpaid balance of the advance being written off by proper adjustment, and debited to "6" Miscellaneous - Miscellaneous and Unforeseen Charges"

(ii) If the balance is in excess of the advance originally sanctioned, the advance will be repaid in full and the excess Credited to Govt. under XLVII Miscellaneous - Miscellaneous.

The procedure is identical, mutatis mutandis, as the same as that followed by the Govt. of India in respect of their employees - Vide pp 1-2 CF and para: 24 Fin. note on p 3 of of Gl. 110 Fin (A) dt 28.6.43. K

4. Following the orders in para: 2 of G.O. 898 Gen. (J) dt 27.5.43, it may be ordered that though the advance in kind at the fair price should be pp 11-12
